*KWAIDAN: Stories and Studies of Strange Things* is a new edition of classic short Japanese horror stories in their original form as written by Lafcadio Hearn over a century ago. Those eerie, magical horror stories are now visually revitalised with accompanying photographs by award-winning photographer Hiroshi Watanabe, who has lovingly brought this edition into print.

### **Watanabe in *LensWork* and *LensWork Extended* #70 Kabuki Portraits**

Watanabe photographs backstage at two *kabuki* theatres – not in Tokyo, but in small towns with local actors who go to great expense to be a part of this honored tradition.
