## New Work

Here is some new underwater work I have been doing focusing on kelp studies. The kelp has been dying out for various reasons. [www.ryuijie.com](http://www.ryuijie.com)

### Ryuijie in *LensWork* #34 *Fragments of Time*

"I do creative work in the darkroom with some manipulating and refinements. But generally if I find something that really catches my attention in the field, I'm already doing the darkroom work in my head. I have a really good idea of what the final product is going to look like, even before I expose the film."

Back issues of *LensWork Extended* perpetually [available here](#).
