### Fine Art Book & Exhibitions

21st Editions has just released a new handcrafted, fine art book titled [Relativity: Wynn Bullock and Albert Einstein](#). It includes 9 bound and 9 loose platinum prints of Wynn's images, plus a signed, vintage gelatin silver photograph. The publisher will be showcasing this extraordinarily beautiful and rare volume (only 10 numbered copies) at the [SPE National Conference](#) in Orlando, March 10-12, and at [AIPAD](#) in New York from March 29-April 2. More background information about this special project may be found in the [January 2017 Bullock photography newsletter](#).

[Wynn Bullock: Revelations](#), the landmark exhibition that premiered at the High Museum of Art in Atlanta, is now on tour. The first stop is the [University of Maryland Art Gallery](#) where the show opened on February 1 and will run through April 14. The second showing of this major retrospective will be at the Center for Creative Photography in Tucson later this year. The third venue to host the exhibit will be the Figge Art Museum in Davenport, Iowa. The dates for this show will be January 13 through April 29, 2018. The catalog that was co-published by the High Museum and the University of Texas Press to accompany this traveling show, features an exceptionally insightful essay by curator Brett Abbott. Hardcover copies, signed by Wynn's daughter Barbara Bullock-Wilson, are available through the [Bullock website](#).
